OMAN AVIATION ACADEMY

ABOUT US

Oman Aviation Academy is a premier aviation training academy dedicated to producing highly skilled and knowledgeable pilots.

Our state-of-the-art facilities, advanced simulation devices, and modern fleet of Diamond aircraft ensure a comprehensive and immersive learning experience. Our new, modern facility is recognized as one of the best in the region and the world. Located in the vibrant city of Suhar, we provide an ideal environment for personal and professional growth, supported by excellent weather conditions for year-round training. At OAA, we are committed to upholding the highest standards of aviation safety and quality.

WHY OMAN AVIATION ACADEMY?

OAA is the only Approved Training Organization in the region certified by the European Union Aviation Safety Agency (EASA) to deliver the Integrated Airline Transport Pilot Training program. We offer the best in aviation education for future pilots, operating the most technologically advanced aircraft with outstanding instructors and the latest technologies in flight training and modern world-class training facilities. Learn to fly in safe, uncluttered airspace with excellent weather conditions.

PRIVATE PILOT'S LICENSE IS A LICENSE THAT APPROVES A CANDIDATE TO FLY AIRCRAFT NON-COMMERCIALY.

- The Private Pilot License (PPL) program equips aspiring pilots with the essential skills and knowledge needed to become certified private pilots. Designed for aviation enthusiasts and those seeking personal aircraft ownership, this program provides a solid foundation in aviation.
- Over six to eight months, students cover key theoretical subjects such as flight principles, air law, meteorology, aerodynamics, navigation, power plants, flight planning, and aircraft systems.
- A Class 2 Medical Certificate is a prerequisite, ensuring candidates meet the required health standards. Training begins with single-engine aircraft, focusing on fundamental flight operations, including takeoff, landing, airport procedures, and radio communication.
- To succeed, candidates must demonstrate discipline, situational awareness, stamina, adherence to schedules, and emotional resilience, all of which are essential for earning a Private Pilot License.

BECOME A PILOT

Pre-entry Requirements

- Minimum 17 years old
- Medical class 2
- Knowledge about math and physics
- A good level of English is required before training commences.

Course Duration

- | | | |
|---------------------------------|--------|---------------------|
| • Theoretical Knowledge | 12 Wks | (Flexible Schedule) |
| • Single Engine Flying Training | 12 Wks | (Flexible Schedule) |
| • Total PPL(A) | 24 Wks | (Flexible Schedule) |

SYLLABUS CONTENT

Theoretical Knowledge

Phase 1		
Subjects	Self Study	Consolidation
Air Law and ATC Procedures	8.4	3.0
Principles of Flight	7.5	6.0
Meteorology	12	6.0
Total this phase	27.9	15.0

SYLLABUS CONTENT

Phase 2		
Subjects	Self Study	Consolidation
Flight Performance & Planning	8.8	3.0
Aircraft General Knowledge	12.3	6.0
General Navigation	7.7	6.0
Total this phase	28.8	15.0

Phase 3		
Subjects	Self Study	Consolidation
Human Performance and Limitations	7.5	3.0
Operational Procedures	2.6	3.0
Communication	3.3	3.0
Total this phase	13.4	9.0
Overall Total	70.1	39.0

Single Engine Flying (DA40)

- hours (Simulator FNPT II)
- With instructor
- Solo
- Simulator

05:45 hours

31:30 hours

11:45 hours

05:45 hours

Total hours: 49:00

*NOT INCLUDED PPL SKILL TEST.

TOTAL COURSE FEES

21,000 USD

FEES INCLUSIVE

- First attempt Exams / Skill Tests.
- Renewal Class (2) Medical.
- All training materials.
- Uniforms (Optional).
- Accommodation including meals (Optional).
